MOBILITY TRANSPORTATION SYSTEMS

ADAPTIVE EQUIPMENT FOR FREEDOM ON THE ROAD

Accessible Van Rentals

Converted Minivans

Mobility Transportation Systems/ Wheelers of Tampa is proud to offer a variety of manufacturers of mobility equipment. Braun Entervans & Rampvans, Eldorado and Eclipse conversions are part of our rental fleet of minivans.

Tie-Down Systems

Four point tie-down systems are used in the front passenger and midsection of all minivans.

Occupancy

Minivans can accommodate maximally two wheelchair users or one scooter in the mid-section. There is a bench seat in the rear for three ambulatory passengers. Wheelchair users can stay in their wheelchair (manual or power) in the front passenger area. The vehicles offer plenty of luggage space.

Additional Driving Devices

Hand-controls can be provided on request. At the time you make your reservation, be sure to request hand-controls, steering knobs or other necessary equipment. MTS/ Wheelers will do everything possible to make your travel experience a pleasant one.

There are a number of ways to become a virtual expert about traveling with a wheelchair or scooter.

- Make your reservations for your wheelchair/ scooter accessible van before you make your airline reservations. This will ensure that you have an accessible vehicle at your destination.
- When you make your airlines reservation, let them know the kind of chair you have and get instructions from them on where to take your chair once you have arrived at the airport.
- If you don't feel comfortable taking your chair on the plane, ask your Wheelers customer service agent to provide a rental chair for you, and have it delivered with the van.
- Get to know the terrain of where you are going before you get there. Look on the internet and call the places you plan to visit and find out what their accessibility features are.
- Be sure to have a map of the area in which you are traveling. Wheelers will be happy to provide one of you.

**Feel
smart
about
traveling**

**Every van
is equipped
to meet
your needs**
